

# What you need to know about K2...

## What is it?

- NOT marijuana
- Dried plants sprayed with chemicals
- Different batches are made of different chemicals
- It has different names: K2, Spice, synthetic marijuana

## It can make you:

- Vomit
- Have trouble walking
- Slur your speech
- Have a racing heart
- Have high blood pressure
- Act aggressively

## Worse, it can make you:

- Pass out/go into a coma
- Have seizures
- Stop breathing
- Die

## K2:

- Is dangerous
- Is only legal because its makers can change it faster than laws can be changed to stop them.

**Don't be fooled by K2!**
